Footnotes

- 1) Only the "front" addresses are listed. An alternate addresses are also available.
- 2) Type classification here is conservative, where a marginal lot is listed at the lower value. Owner should review the grading plan and adjust as necessary per their own analysis.
- 3) Based on buildable envelope depicted in Lot Sales Exhibit.
- 4) Based on buildable envelope depicted in Lot Sales Exhibit. Some envelopes are artificially smaller than available due to adjacent trees being saved.
- 5) A side yard easement controls for one of the sides of this lot, not the setback dimension.
- 6) Note unused.
- 7) Minimum Opening Elevation
- 8) Bi-Attached lot tied to adjacent lot. One of the two side setbacks is therefore zero.
